FAQs

How long will Invisalign® treatment take?

The duration of Invisalign® treatment will vary case by case. We recommend a detailed consultation with one of our Tetra dentists for a clearer timeline on your Invisalign® treatment.

What is the difference between composite and porcelain veneers?

Composite material is far less durable and usually has a limited lifespan. It is a great short-term or transitional solution for those wanting to improve concerns in their smile before moving onto porcelain veneers

FAQs

Do you offer sleep dentistry?

Sleep dentistry is available for most of our patients at Tetra Dental.

Options such as oral sedation and IV sedation are available to help you feel relaxed during treatment.

We always aim to make your dental treatment as comfortable as possible.

Speak to one of our dental staff if going through dental procedures has been worrying for you.

What is the difference between composite and porcelain veneers?

Composite material is far less durable and serve as a great short-term or transitional solution for those wanting to improve concerns in their smile before moving onto porcelain veneers

FAQs

Who is All on Implants suitable for?

All on implants are suitable for people with multiple missing teeth or have severely compromised teeth. It is also a solution for those who are looking for a fixed alternative to wearing dentures.

Do porcelain veneers require shaving?

In some cases, porcelain veneers can be applied directly on top of natural teeth without any shaving/trimming.

As every case is different, our Tetra dentists will always aim to do as little to no preparation with your natural teeth
